PALS

We closely monitor the sales process from 'an idea' to 'profit', and guarantee instant solutions to problems with our 24/7 availability.

As Pals Consultancy, by believing that a good product requires a good supply process, we support companies to reach their best state. Being aware of the difficulties in the sector, we set out as Pals Consultancy by combining our 10 years of operation management, sales and customs experience in order to ensure that companies can obtain the right product at the right price. Our aim is to make sure that companies get maximum efficiency from their sales within the framework of Turkey's export plans.

With our young, dynamic and innovative staff; our company, based in Istanbul, supports manufacturers all over Turkey and enables them to reach the right buyers around the world.

We perform risk analysis for our clients, and always strive to bring companies one step ahead with new market ideas.

WHAT IS CHARCOAL?

Charcoal is a light, black carbon residue obtained by heating wood at a high temperature with minimum oxygen, removing all water and volatile components. Charcoal is produced from carefully selected wood types to provide high calorific value, long burning times, and minimum ash. Produced in various countries for both restaurant and BBQ use, our products are designed to offer optimum burning time, calorific value, and performance to meet your specific needs. Available in 10 kg, 15 kg, and 20 kg packaging options, our charcoal is suitable for both industrial and personal use, offering efficient and eco-friendly solutions. We also offer customized packaging and branding options to meet your business needs.

PALS & CHARCOAL

In addition to our foreign trade activities, we operate as distributor of natural charcoal, briquette charcoal and coconut cube charcoal.

We trade BBQ and restaurant type charcoal from different parts of the world. Cuba, Nigeria, Colombia, Paraguay, Namibia, Venezuela and Ghana are among the countries where we work intensively. We supply large wholesalers, restaurants and hookah cafes all over the world, in Turkey, Europe and the Middle East. We guarantee to supply the best product at the best prices, since we work with one-on-one control and supervision of the production areas.
